

Zoom Video Meetings with an iPhone, iPad or Android device

This brief walk-through will help you to set-up Zoom on your iPhone, iPad or Android device, & join a virtual meeting for your Life Group at St Mark's.

Step 1: For your iPhone or iPad, download the free “ZOOM Cloud Meetings” app by [clicking here](#) and following the prompts in the App Store.

For your Android device, [click here](#) and following the prompts in the Google Play Store.

Step 2: Open the Zoom app and click “Join a Meeting”. (you can join a meeting without signing in).

will provide you with a Meeting ID and password to enter.

Your device may ask you to authorise access to mic/camera permissions via a pop-up. It's important that you allow access to the camera and microphone so that you can participate.

Step 3: Once you've joined the meeting, it will look like this. If you can only see one other participant, swipe left to bring up the whole group.

You'll have access to these options (if you require them during your gathering):

Turn off your own speakers

Stop/start your video feed

Mute your microphone
