

Zoom Video Meetings with PC or Mac

This brief walk-through will help you to set-up Zoom on your Windows or Apple Mac device, & join a virtual meeting for your Life Group (or other group).

Step 1: Visit the zoom.us download page [here](#) and install the free “ZOOM Cloud Meetings” application for your Windows or Mac computer.

Step 2: Launch the Zoom application and click “Join a Meeting” to join a meeting (you can join a meeting without signing in).

Josh will provide you with a Meeting ID and password to enter.

Your device may ask you to confirm a microphone/camera to use during the session

Step 3: Once you’ve joined the meeting, it will look like this. You’ll have access to these options:

See everyone in the gathering

Stop/start your video feed

Mute your microphone
